

I had actually forgotten about the "Do Not Call" List. My house has never been so peaceful. We do not have to check the ID caller anymore to know if we can pick up the phone we pay for. We can eat dinner and know we will not be interrupted by persons on the line who can't take "NO" for an answer. These telemarketers force a person to go out of their natural character and actually be nasty. I do not want you to revoke, change or attempt to alter NJ's DO NOT CALL Law. We have enjoyed our peace and do not look forward to that changing. I know that telemarketing companies need to survive, and they hire a lot of youth to work their lines, but let them do that in states that don't mind or at a scaled down level. NJ does mind. Keep our DO NOT CALL Law intact.
